BEARDEN BEHAVIORAL HEALTH NOTICE OF FINANCIAL INFORMATION:

Appointments with each clinician of Bearden Behavioral Health are set by mutual agreement between the clinician and the client. Except for the Initial Evaluation, sessions last 45-50 minutes. **Clients must call to inform the office of appointment cancellations at least 24 hours in advance in order to avoid charges for missed sessions.**

Insurance co-pays/coinsurance/deductibles are due at the beginning of each session. All fees and copays **must** be paid at the time of the appointment. Should your insurance claim be denied, you are responsible for payment of your treatment including all deductibles and in- network and out-of-network co-insurances. **Payments for sessions should be made by cash or credit card (Visa, Discover, and MasterCard are accepted). Personal Checks will not be accepted.**

Any amount owed by a client will be sent a statement at the end of each month. Should payment or payment arrangements not be made within thirty (30) days of invoice date, all unpaid balances will be sent to a collection agency for non-payment. At this time, you understand and agree that the money owed to Bearden Behavioral Health will be collected by the collection agency plus a forty (40) percent collection fee.

Bearden Behavioral Health & our providers will complete forms, provide specialized records for clients to obtain or maintain disability income, work or school leave, FMLA, or for court or legal cases based on their individual clinical discretion. Bearden Behavioral Health and associates will not bill disability/worker's compensation insurance companies or client's attorneys, or get involved in disability or legal/court cases. Should any provider at Bearden Behavioral Health be subpoenaed or required to participate in any sort of legal matters (such as correspondence, consultations with attorneys, expert opinions, or creation of any documents which will be used for legal purposes), the client (not the insurance company) will be billed at a rate of \$350 per hour and a NON-REFUNDABLE minimum of two hours fee must be deposited one week prior to services. This is a per scheduled date fee and will be billed for each date the provider has to block their schedule for legal services. Any non-legal document preparation which provider agrees to complete will be billed at the rate of \$150 per document.

Medical Records will be provided when requested at a rate of \$20 for the first 5 pages and \$.50 per page after the first 5. If you request the records to be mailed you will also be responsible for postage. Please allow up to 30days for delivery.

Bearden Behavioral Health has no form of a sliding fee payment system. If you have a financial agreement prior to 01/01/18, it will be void effective 01/01/18.

Bearden Behavioral Health & our providers are not able to accept some insurance plans; these include but are not limited to TennCare products.

If client is using health insurance to pay for sessions:

I authorize the release of any medical or other information necessary to process insurance claims.

I authorize payment of medical benefits to the treatment professional for services provided to me.

Treatment Consent for Psychiatric Services at Bearden Behavioral Health

INITIAL EVALUATION & SESSIONS Our providers generally conduct a thorough psychiatric evaluation during the initial session – which is typically scheduled for 60 minutes. This assessment focuses on determining the best treatment plan possible and is specific to each individual patient. It is extremely important for this initial assessment to be as comprehensive as possible. Therefore, please bring completed patient forms (under 'Forms' section of Bearden Behavioral Health website) to this appointment and make sure to provide information about previous providers, past psychiatric treatment, and medications you are currently taking as well as medications that you may have tried in the past. In some situations, extra sessions are needed to complete an appropriate evaluation. Additionally, collateral information (i.e., school reports, family reports, etc.) are often necessary for children and adolescents – and helpful for adult patients as well. These issues will be discussed during the initial session. Please remember that a comprehensive assessment is necessary regardless of the treatment modality (i.e., psychotherapy, psychiatric medications, or both) as it allows us to provide the best possible care. Additionally, we will mutually determine if the evaluating provider is the best fit for your individualized care.

PRACTICE STATUS Bearden Behavioral Health, is an integrated clinic of mental health providers. At any time, there may be several psychiatrists, psychologists, therapists, social workers, and other mental health professionals that work in this office suite. There also are other independent providers who sublease office space within the suite. While we share space and often provide collaborative care, each provider is responsible for providing care up to professional standards. All records are stored using an industry leading electronic health record called Therapy Notes. Your records should only be accessed by your current provider as well as covering providers. The office assistants also may, at times, have access to your record. Please note that it is our policy to always protect this information in accordance with all legal and ethical standards. Additionally, your provider here at Bearden Behavioral Health practices within a network of other professional colleagues (i.e., primary care doctors, other specialty physicians, psychologists, social workers, therapists, nutritionists, etc.) that we use as referrals for multidisciplinary care. If a referral is necessary, this will be discussed in session and your provider will work to collaborate with these professionals and coordinate your care. Please note, however, that although we attempt to identify top quality professionals with very high standards of care, we cannot be responsible for the services/treatment that they provide. It is always your responsibility to determine if a professional referral is acceptable, and alternative options will be considered.

PSYCHOTHERAPY is both a way of understanding human behavior and of helping people with their emotional difficulties and personal problems. Psychotherapy typically starts with an assessment of problematic symptoms and maladaptive behaviors that often intrude into a person's social life, personal relationships, school or work activities, and physical health. Specific psychotherapeutic strategies may be employed to alleviate specific problems causing distress such as depression, anxiety or relationship problems. Self-knowledge is seen as an important key to changing attitudes and behavior. Psychotherapy may involve the development of insight as to how our physical health may be compromised in many ways by emotional and relationship issues. Therapy is designed to help clients of all ages understand how their feelings and thoughts affect the ways they act, react, and relate to others. Whether or not therapy works depends a great deal on the client's willingness and ability to experience all relationships deeply, especially the therapeutic relationship. Each client has a unique opportunity to view themselves more accurately, and to make connections between past and current conflicts that illuminate the way one relates to one's self and to others. Clients are encouraged to talk about thoughts and feelings that arise in therapy, especially feelings toward the therapist. These feelings are important because elements of one's history of important affections and hostilities toward parents and siblings or significant others are often shifted onto the therapist and the process of therapy. Psychotherapy can be relatively short term (8 to 16 weeks) when the focus is limited to resolve specific symptoms or problem areas, or longer term if the treatment focus targets more pervasive or long-standing difficulties. When the client feels she or he has accomplished the desired goals, then a termination date can be set. Psychotherapy aims to help people experience life more deeply, enjoy more satisfying relationships, resolve personal conflicts, and better integrate all the parts of their personalities. Initials _____

MEDICATION MANAGEMENT Psychiatric medications can be used in conjunction with psychotherapy to treat many conditions. It is important to find the best combination of medications and therapy for each individual case. Our providers can provide an integrated approach as they are trained to administer both psychiatric medications and psychotherapy. However, in some situations, it may be appropriate to consider merely managing your psychiatric medications and sharing the psychotherapy with an alternative provider. Often called the 'split treatment' model, this should be discussed in order to determine if it would be a viable option for you. We can help find the best provider for you whether at Bearden Behavioral Health or another provider in the community. In situations that warrant the use of medications, it is imperative for you to

understand the target symptoms and likely outcomes. Additionally, since all medications have the potential for side effects, your provider will always discuss the risks, benefits, side effects, government warnings, and alternative treatments (which always includes not using medications) with you. Initials _____

PROFESSIONAL RECORDS Both law and professional standards protect mental health records. Although you are entitled to review a copy, these records can be misinterpreted given their professional nature. In rare cases when it is deemed potentially damaging to provide you with the full records directly, they are available to an appropriate mental health professional of your choice. Alternatively, we can review them together and/or treatment summaries can be provided. Please note that professional fees will be charged for any preparation time required to comply with such requests.

CONFIDENTIALITY is a cornerstone of mental health treatment and is protected by the law. Aside from emergency situations, information can only be released about your care with your written permission. If insurance reimbursement is pursued, insurance companies also often require information about diagnosis, treatment, and other important information (as described above) as a condition of your insurance coverage. Several exceptions to confidentiality do exist that actually require disclosure by law: (1) danger to self – if there is threat to harm yourself, we are required to seek hospitalization for the client, or to contact family members or others who can help provide protection; (2) danger to others – if there is threat of serious bodily harm to others, we are required to take protective actions, which may include notifying the potential victim, notifying the police, or seeking appropriate hospitalization; (3) suspicion of child, elder, or dependent abuse – if there is an indication of abuse to a child, an elderly person, or a disabled person; even if it is about a party other than yourself, we must file a report with the appropriate state agency; (4) certain judicial proceedings – if you are involved in judicial proceedings, you have the right to prevent us from providing any information about your treatment. However, in some circumstances in which your emotional condition is an important element, a judge may require testimony through a court order. Although these situations can be rare, we will make every effort to discuss the proceedings accordingly. We also reserve the right to consult with other professionals when appropriate. In these circumstances, your identity will not be revealed and only important clinical information will be discussed. Please note that such consultants are also legally bound to keep this information confidential.

EMERGENCIES:

You may telephone or arrange for telepsych services with your therapist in an emergency. Your therapist is not always immediately available by phone and may not be available in the evening. If unavailable, your call will be returned as soon as possible. If your therapist is unavailable, or you have an emergency, you should call 911; telephone a crisis line; or proceed to a psychiatric emergency facility. **For emergencies/crisis team services call mobile crisis at 865-539-2409.**

ARBITRATION/MEDIATION:

I agree to address any grievances I may have directly with my therapist immediately. If we cannot settle the matter between us, then a jointly agreed-upon outside consultation will be sought. If not, an arbitration process will be initiated, which will be considered as a complete resolution and legally binding decision under state law. By signing this contract you are agreeing to have any issue of medical or psychological malpractice decided by neutral arbitration and you are giving up your right to a jury or court trial. It is understood that any dispute as to medical malpractice, that is as to whether any medical series rendered under this contract were unnecessary or unauthorized or were improperly rendered, will be determined by submission to arbitration as provided by Tennessee law and in accordance with the rules of the American Arbitration Association, and not by lawsuit or resort to court process except as Tennessee law provides for judicial review or arbitration proceedings. Both parties to this contract, by entering into it, are giving up their constitutional right to have any such dispute decided in a court of law before a jury, and instead are accepting the use of arbitration. Any arbitration process will be considered as a complete resolution and legally binding decision. The client will be responsible for the costs of this process. In agreeing to treatment, you are consenting to the above identified grievance procedures.

I understand that I may end mental health services with Bearden Behavioral Health at any time of my choosing.

Your signature below indicates that you have read the Treatment Consent Form which contains information on psychiatric services, sessions, professional records, confidentiality, and practice status, and you agree to abide by its terms during our professional relationship.

Credit Card Pre-Authorization Form

Patient Name: _____ Date: _____

Patient DOB: _____

Patient Address: _____

The undersigned Patient/Cardholder hereby authorizes Bearden Behavioral Health, to obtain payment of fees for services from the Patient/Cardholder's Credit Card account identified below. Bearden Behavioral Health may charge the account for missed appointments (*minimum of 24 hours cancellation notice is required*), without requirement of the Patient/Cardholder's signature for each payment. A receipt of the transaction will be mailed to the address provided by the Patient/Cardholder above.

By signing this form, the Patient/Cardholder acknowledges and agrees as follows:

- *This signed form is confidential and will be kept on file at Bearden Behavioral Health.*
- *The Patient/Cardholder authorizes Bearden Behavioral Health to automatically charge the below-referenced Credit Card any remaining balance on the above-named patient's account (including copays, co-insurances, deductibles or missed appointment fees).*
- *The Patient/Cardholder certifies, warrants and represents that the Cardholder named above agrees to pay the credit charge(s) in accordance with the agreement described above.*
- *Credit Card payments will appear on your statement as Bearden Behavioral Health.*
- *If the Patient/Cardholder fails to dispute a charge within 30 days from the time the Credit Card is charged, the Patient/Cardholder agrees that the charges are valid and agrees not to dispute said charges.*
- *This authorization will remain valid for 12 months and will automatically renew on an annual basis, unless revoked in writing with 30 day notice of revocation.*
- *This authorization serves as agreement for receipts to be noted "signature on file" when charged.*

MISSED APPOINTMENT POLICY

In an effort to provide all of our patients with quality care in a timely manner, Bearden Behavioral Health has implemented a missed appointment policy.

Failure to show for a scheduled appointment, or **notify our office of cancellation at least 24 hours prior to your appointment time**, will result in a \$50 missed appointment fee. This fee will be directly charged to a credit card that we will keep on file. We will send you a receipt notifying you immediately of the missed appointment charge. If you decline to provide a credit card upfront and incur a \$50 missed appointment fee, we will mail you an invoice with a 10% surcharge resulting in a \$55 charge. All remaining appointments will be cancelled and you will not be rescheduled until the \$55 fee has been paid in full or payment arrangements have been made. ***Please fill out the attached Credit Card Authorization Form.**

Our missed appointment policy enables us to better utilize available appointment time for all of our patients who are in need of care. Thank you for your consideration of this policy. We are honored that you have chosen Bearden Behavioral Health as your provider.

In order to be respectful of the needs of other patients, please be courteous and call our office if you are unable to keep your scheduled appointment. This will allow us to reallocate this appointment time to another patient in need of care. Please provide us with a minimum of 24 hours' notice should you need to cancel or reschedule. To cancel or reschedule an appointment please call our office at (865) 212-6600. We understand that occasionally we are busy and you are connected to our voicemail. **If you are trying to cancel by phone and reach our voicemail, please leave your full name and the time of your appointment in order to cancel. Please note if you do reach our voicemail and you choose not to leave a message and fail to notify us of cancellation, this will also result in a missed appointment charge.**

Financial Statement:

Any amount owed by a client at the end of the month will be sent in an invoice at the end of the month. Should payment or payment arrangements not be made within **30 days** of the invoice date, any unpaid balance will be sent to a collection agency for non-payment. At this point, you understand and agree that the money owed to Bearden Behavioral Health will be collected by the collection agency plus a 40% collection fee.

- I accept this policy and will sign the credit card authorization form.
 I accept this policy and decline to sign the credit card authorization form.

CONSENT FOR TRANSMISSION OF PROTECTED HEALTH INFORMATION BY NON-SECURE MEANS

I, _____ AUTHORIZE: **Bearden Behavioral Health**
(name of client)

TO TRANSMIT THE FOLLOWING PROTECTED HEALTH INFORMATION RELATED TO MY HEALTH RECORDS AND HEALTH CARE TREATMENT:

- Information related to the scheduling of appointments (this may include support staff for clinician)
- Information related to billing and payment (this may include support staff for clinician)
- Completed forms, including forms that may contain sensitive, confidential information (this may include support staff for clinician)
- Information of a therapeutic or clinical nature, including discussion of personal material relevant to my treatment
- My health record, in part or in whole, or summaries of material from my health record

BY THE FOLLOWING NON-SECURE MEDIA: Unsecured email.

Bearden Behavioral Health takes all security measures required to protect the confidentiality of our client's protected health information. However, Bearden Behavioral Health is unable to control outside email servers and is therefore unable to safeguard these transmissions completely. We must inform all clients who prefer to communicate with their clinician this way at any time, that there may be some level of risk that the information in the email could be read by a third party. Patient agrees to hold harmless Bearden Behavioral Health for any information loss due to a technical failure.

TERMINATION

This authorization will terminate 12 months after the last day patient received treatment in our office.

I have been informed of the risks, including but not limited to my confidentiality in treatment, of transmitting my protected health information by unsecured means.

I understand that:

I am not required to sign this agreement in order to receive treatment.

I may terminate this authorization at any time.

It is the providers discretion to determine if an email is to become part of my electronic medical record.

Child's Name: _____ Date of Birth: _____ Male _____ Female _____

Form Completed By: _____ Relationship to Child: _____

For each item below, check the one category that best describes your child **during the past 6 months**.

None = the child never or very rarely exhibits this behavior. **Mild** = the child exhibits this behavior approximately once per week, and few others notice or complain about this behavior. **Moderate** = the child exhibits this behavior at least three times per week, and others notice or comment on this behavior. **Severe** = the child exhibits this behavior almost daily, and multiple others complain about this behavior. **Past** = the child used to have significant problems with this behavior, **but not during the past 6 months**.

	None	Mild	Moderate	Severe	Past
1. Has difficulty separating from parents* (* = or major caregiver/guardian)					
2. Worries excessively about losing or harm occurring to parents*					
3. Worries about being separated from parent* (getting lost or kidnapped)					
4. Resists going to school or elsewhere because of fears of separation					
5. Resists being alone or without parents*					
6. Has difficulty going to sleep without parent nearby					
7. Physical complaints (headache, stomach ache, nausea) when anticipating separation					
8. Has discrete periods of intense fear that peak within 10 minutes					
9. Has excessive, unreasonable fear of a specific object or situation					
10. Has recurrent thoughts that cause marked distress (e.g., fears germs)					
11. Driven to perform repetitive behaviors (e.g., handwashing, doing things 3 times)					
12. Has recurrent, distressing recollections of past difficult or painful events					
13. Worries excessively about multiple things (e.g., school, family, health, etc.)					
14. Goes to the bathroom at inappropriate times or places					
15. Makes noises, and is often unaware of them					
16. Makes repetitive, sudden, nonrhythmic movements					
17. Fails to pay close attention to details or makes careless mistakes					
18. Has difficulty sustaining attention during play or school activities					
19. Does not seem to listen when spoken to directly					
20. Does not follow through on instructions; fails to finish schoolwork/chores					
21. Has difficulty organizing tasks and activities					
22. Loses things necessary for tasks or activities (toys, pencils, etc.)					
23. Is easily distracted easily by irrelevant stimuli					
24. Is forgetful in daily activities					
25. Is fidgety or squirms in seat					
26. Has difficulty remaining seated					
27. Runs or climbs excessively; is restless					
28. Talks excessively					
29. Blurts out answers before questions have been completed					
30. Has difficulty waiting turn					
31. Interrupts or intrude on others					
32. Episodes of unusually elevated or irritable mood					
33. During this episode, grandiosity or markedly inflated self-esteem (Superhero)					
34. During this episode, is more talkative than usual/seems pressured to keep talking					
35. During this episode, races from thought to thought					
36. During this episode, is very distractible					
37. During this episode, excessively involved in things (too religious, hypersexual)					
38. During this episode, dangerous involvement in pleasurable activity (spending, sex)					
39. Depressed or irritable mood most of the day, most days for at least 1 week					
40. Loss of interest in previously enjoyable activities					
41. Notable change in appetite (not when dieting or trying to gain weight)					
42. Difficulty falling or staying asleep, or sleeping excessively through the day					
43. Others notice child is sluggish or agitated most of the time					

	None	Mild	Moderate	Severe	Past
44. Loss of energy nearly every day					
45. Feelings of worthlessness or inappropriate guilt nearly every day					
46. Thinks about dying or wouldn't care if died					
47. Smokes cigarettes, drinks alcohol, OR abuses drugs (Circle all that apply)					
48. Has bad things happen when under the influence of substances					
49. Has made unsuccessful efforts to stop using a substance					
50. Is excessively worried about gaining weight, even though underweight					
51. If female, has stopped having menstrual cycles (after regularly having)					
52. Thinks he/she is fat, even though not overweight (pulls skin and claims is fat, etc.)					
53. Engages in bingeing and purging (eats excessively, then vomits or uses laxatives)					
54. Bullies, threatens, or intimidates others					
55. Initiates physical fights					
56. Uses weapons that could harm others					
57. Has been physically cruel to animals					
58. Has shoplifted or stolen items					
59. Has deliberately set fires					
60. Has deliberately destroyed others' property					
61. Lies to obtain goods or to avoid obligations					
62. Stays out at night despite parental prohibitions					
63. Has run away from home overnight on at least two occasions					
64. Is truant from school					
65. Loses temper					
66. Actively defies or refuses to comply with adult rules					
67. Deliberately annoys others					
68. Blames others for his/her mistakes or misbehavior					
69. Easily annoyed by others					
70. Is spiteful or vindictive					
71. Has unusual thoughts that others cannot understand or believe					
72. Hears voices speaking to him/her that others don't hear					
73. Does poorly at sports or games requiring physical coordination skills					
74. Has difficulty at school with: reading, writing, math, spelling (Circle all that apply)					
75. Had delayed speech or has limited language now					
76. Avoids eye contact during conversations					
77. Does not follow when others point to objects					
78. Shows little interest in others; emotionally out of sync with others					
79. Difficulty starting, stopping conversation; continues talking after others lose interest					
80. Uses unusual phrases, possibly over and over (speaks Disney or movie lines)					
81. Does not engage in make-believe play; plays more alone than with others					
82. Unusual preoccupations with objects or unusual routines (lines up 100's of cars, etc.)					
83. Difficulty with transitions; may be inflexible about adhering to routines or rules					
84. Shows unusual physical mannerisms (hand-flapping, shrieks, objects in mouth, etc.)					
85. Unusual preoccupations (schedules, own alphabet, weather reports, etc.)					

Thank you for answering each of these items. Please list any other symptoms that concern you:

Nurse Practitioner Service Agreement

As a part of your holistic treatment plan, when working with a nurse practitioner, you may engage with 2 types of billable services. The 2 main services that a Nurse Practitioner (NP) can provide and bill for are:

1.) Medication Management

Service Expectations for Medication Management include:

- Medical evaluation
- Medication monitoring routinely and as needed
- Client education pertaining to the medication to support the individual in making an informed decision for its use.
- The service provider must make a good faith attempt to coordinate care with the individual's primary medical provider

2.) Time Based Psychotherapy Services

Service Expectations for Time Based Psychotherapy include:

- Interactive therapy involving any current symptom complaints or psychosocial stressors.
- Examples of time based psychotherapy: patients working collaboratively with their NP to improve organizational skills to cope with ADHD, patients working on sleep hygiene measures to reduce anxiety & improve sleep quality, processing of feelings surrounding a recent or past traumatic experience, working on strategies to ground when stressed or triggered, discussing family dynamics, working on ways to communicate effectively with ones partner, friends, or family, non medicinal strategies for coping with nightmares, mindfulness work, creative imagery or safe place visualization.
- Examples of patients who do not need time based therapy services: patients who are stable, have no active psychiatric complaints, no active stressors, and are just coming in for medication maintenance refills.

When you come to see an NP at BBH you will always be billed for a Medication Management code as that is a crucial part of an NP's clinical training and expertise. Depending on the situation, your NP may or may not bill for a time based psychotherapy service. It depends on what is discussed in the session and for how long. Some NPs have more expertise and continuing education to provide therapy services than others. Those that do, will spend time on this service in most any session unless it is deemed that there is no need for therapy (such as in the example listed above). Other NPs may spend more time doing med management only. It totally depends on their areas of training/specialty.

Please be advised that unless you tell us in advance that you want no therapy from your NP, you may be billed for medication management and psychotherapy if an NP sees both services as medically necessary and they possess the expertise to offer both services to you.

If you ask for no therapy services to be provided, you will need to put this in writing and bring it to your NP for further discussion. All services rendered are ultimately up to the NP, not billing or front scheduling staff so we ask that you reserve these conversations for your scheduled session.

I acknowledge receipt and understanding of all information listed above and consent to receive the above services with my Nurse Practitioner, should they be assessed to be medically beneficial to me during the course of my treatment:
